VigiFlow release 15 February 2023
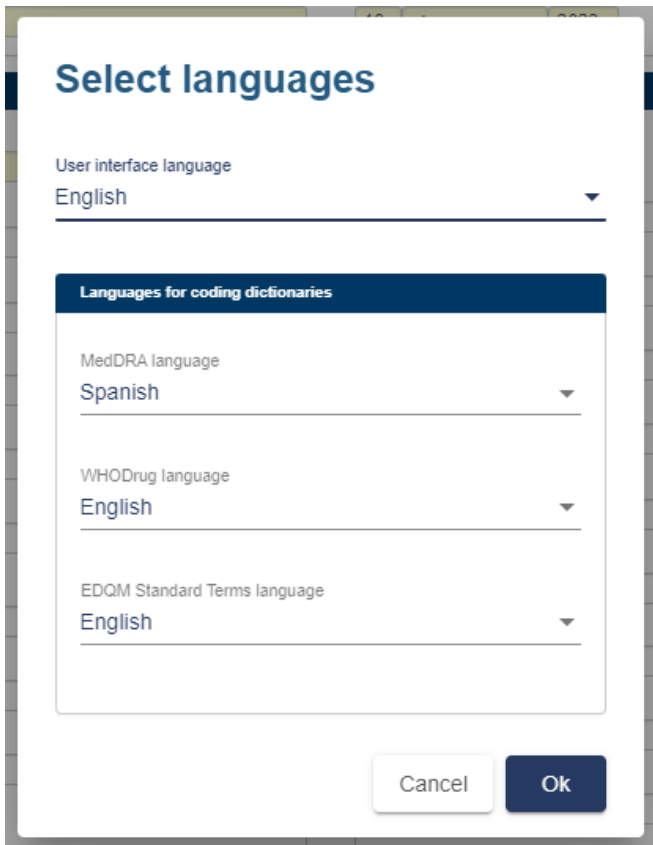

What's new?

This release is mainly a maintenance release, with only a few changes affecting the VigiFlow users.

Language settings

Users can select language of the UI and language of MedDRA, WHODrug and EDQM dictionaries separately:

Right to left support

We are working on adding more languages to VigiFlow. So far Farsi was added, however still with left to right support, and Arabic, but the text will still be shown in English.
